

## TESTES INSOMNIA

✓ página de cadastro funcionando (todos os CRUD) - LOCAL

The image consists of four vertically stacked screenshots of the Insomnia REST client. Each screenshot shows a successful API request with a status code of 200.

- User Endpoint:** GET http://localhost:3000/users. Response body: 

```
[{"id": 1, "name": "John Doe", "email": "john.doe@example.com", "password": "password123"}, {"id": 2, "name": "Jane Smith", "email": "jane.smith@example.com", "password": "password123"}]
```
- Login Endpoint:** POST http://localhost:3000/login. Response body: 

```
{"token": "JWTToken123", "user": "John Doe", "email": "john.doe@example.com"}
```
- Book Endpoint:** POST http://localhost:3000/books. Response body: 

```
{"id": 1, "title": "The Great Gatsby", "author": "F. Scott Fitzgerald", "year": 1925, "genre": "Fiction", "type": "Physical Book"}
```
- Author Endpoint:** DELETE http://localhost:3000/authors/1. Response body: 

```
{"message": "Author deleted or expired."}
```

## ✓ página de login funcionando (todos os CRUD)

The screenshot shows the Postman application interface. On the left, there's a sidebar with project navigation and a search bar. The main area has tabs for 'ATE', 'UPDATE', 'DELETE', 'TESTE', 'LOGIN' (which is active), 'CREATE', 'READ', and 'DELETE'. Below these tabs, there's a 'Send' button and a status indicator showing '200 OK', '408 ms', and '181 B'. The URL is set to 'https://allwearback0.vercel.app/login'. The 'Params' tab is selected, showing a JSON payload:

```
1: {
2:   "email": "tiagoh@mail.com",
3:   "senha": "senhat123"
4: }
```

The 'Body' tab is also visible. To the right, there's a 'Preview' section showing the response body:

```
1: {
2:   "token": "eyJhbGciOiJIUzI1NiBhCjE1IkpVOCJ9.eyJpcCn0tewI2thamM011la#AzwheM0y29t1lwIe1jouc0t0
3:   "iy0t4AC131ewI0j01NTMSj3tch...-iHdgaxexspMac50vA1Hf73HntgdyChz2w"
4: }
```

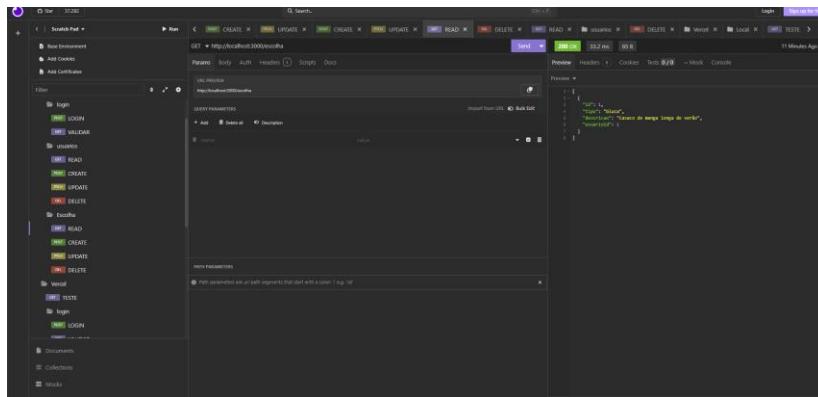

Below the preview, there are tabs for 'Headers', 'Cookies', 'Tests', 'Mock', and 'Console'.

This screenshot shows another instance of the Postman interface. The sidebar and tabs are similar to the first one. The URL is 'GET http://localhost:3000/login'. The 'Params' tab is selected, showing a URL PREVIEW of 'http://localhost:3000/login'. The 'Body' tab is also visible. The 'Preview' section shows a response body:

```
1: {
2:   "message": "token invalido ou expirado."
3: }
```

The status bar at the bottom indicates '403 Forbidden', '11 ms', and '42 B'. There are tabs for 'VALIDAR', 'READ', 'CREATE', 'UPDATE', 'DELETE', 'Runner', and 'VALIDAR' again. The 'Tests' tab shows '0/0' tests run. The 'Mock' and 'Console' tabs are also present.
